

NURSERY RHYME IN VARIOUS FORMS

Each Family of Puzzlers Appeared to Have Its Own Special Version.

TREMENDOUS NUMBER OF ANSWERS KEPT THE PUZZLE EDITOR BUSY—PRIZE DOLLAR WON BY MISS FRANCIS LIVINGSTON, OF RIVER JUNCTION.

Well! That old nursery rhyme has come in in all sorts of rhymes, as though each family of puzzlers must have had its own special version, each peculiar to itself.

Such a tremendous lot of answers, and the many accompanying letters have given the puzzle editor about all the time he could do between the time the puzzle comes every Thursday evening and the time when all the puzzle copy has to be in the printer's hands for the Sunday Journal.

Miss Francis Livingston, of River Junction, Fla., wins the dollar this week and Mr. Mayes will send her a cheque Monday.

The correct answer to last week's puzzle picture is as follows:

Answers August 13.

Shown in this Picture are two well known proverbs. Can you tell what they are?

TO THE BOY OR GIRL WHOSE NAME IS DRAWN FROM THE CORRECT ANSWERS RECEIVED AT THIS OFFICE BY NEXT THURSDAY NIGHT, THE JOURNAL WILL GIVE A SILVER DOLLAR.

A Week of Fact and Fancy, Fun and Folly in Florida

Man Sawn in Two.

At 5 o'clock on the afternoon of the 8th instant, at the portable sawmill of Johnson Brothers, ten miles east of Perry, Mr. Moran, about 23 years old, fell across the running saw, in the presence of several people, and was instantaneously sawn in two. One arm was severed. The onlookers were so horror-stricken they could hardly raise courage enough to place the severed corpse in a condition to be put in a casket.—St. Augustine Record.

Floridians Believe in Bathing.

The people of Florida are healthy because they believe in bathing. Half the complaints that people are afflicted with can be cured by bathing in pure water. If you haven't got a bath tub, invest in a sponge and take a sponge bath every morning.—Gainesville Sun.

River Hyacinths.

The hyacinths in the river were particularly noticeable this morning. It is astonishing how the pestiferous little water growths manage to remain in the stream in such numbers. Every tide carries them out into the bay, but it seems as if they collect in the eddies and in this way escape being totally destroyed. The city slip was filled with the growth this morning, covering the water with a green carpeting that hid the stream entirely from view.—Tampa Times.

A Narrow Escape.

Wednesday the launch Yankee Doodle came down from Daytona with a large party on board and went up to Turtle Mound. It was night when they passed the inlet on their return, and when opposite the inlet the engine stopped and refused to go. They threw out the anchor but the rope caught on the propeller and the launch would not hold, and the tide soon carried them out into the ocean. There was a long rope on board and a gentleman swam ashore with the rope and saved the party from a watery grave. Some of the party came over to

town and secured two of Dohn's hacks to bring them to town, and they arrived here about 3 o'clock in the morning, after a terrible night's experience. They went to Daytona on the early train.—New Smyrna Breeze.

Schooner in the Mud.

The fine schooner Julia A. Trubee, from the north, carrying general cargo, is at the head of the Gunn dock, and will discharge her cargo during the present week. Work on unloading the schooner was commenced this morning. The Trubee is probably more heavily laden than any other vessel that has come into this port this year. The schooner draws thirteen and a half feet of water, and was lying on the mud at high tide this morning. The Trubee's anchor stock was half submerged in the water even when it lay on the bottom, and all in all, the vessel presented the appearance of a very sturdy ocean carrier laden to the brim with valuable merchandise and other goods. Together with the cargo discharged by the big four-masted Doyle, the cargo of the Trubee brings hundreds of tons of merchandise of various kinds into the city within a period of two weeks.—Tampa Times.

Wreckers Receive \$10,000.00.

Word has been received here that the wreckers of the Ward line steamer City of Washington, Capt. Robert Michelson, which went aground off Triumph Reef on the morning of the 7th inst., and which was floated two days later, have agreed with the underwriters' agents on the amount of salvage; and that the case has been settled out of court.

This was done at Key West, where the steamer proceeded for a survey and for the purpose of retaking aboard the cargo removed and carried there by the wrecking vessels. The amount of salvage agreed upon was \$10,000, the same as promised by Capt. Michelson to Captain Parker, of the schooner Two Brothers, who was agreed upon as wreckage master.

But ten boats were in the deal and the share of each will amount to a neat sum. This money is said to be immediately available, and it will go into circulation at an opportune time.

The City of Washington, as previously stated in the Metropolis, was uninjured and after settling with the wreckers and taking aboard her cargo in the Island City, proceeded to her destination in Mexico.—Miami Metropolis.

A Wreck Averted.

As E. Delmarter was walking on the railroad track east of Bonifay last Sunday afternoon he found a piece of round iron wedged on the track in such a place that the evident intent was to wreck the passenger train. He removed it and reported the matter to the agent at Bonifay.—DeFuniak Breeze.

A "Game" Section.

This is the "gamest" section of Florida. A bear was killed in Baker county last week, and Sheriff Purvis took in two live tigers. Catching 'em some.—Lake City Index.

Washington County Values.

The tax values in Washington county for 1904 were \$2,022,000, and for 1905 they are \$2,240,000, thus giving an increase of \$218,000 for the year. The fact, too, must be remembered, that there was no boom in property in the county, nor has there been any unusual influx of property or money from outside the county. The increase simply shows the healthy growth of good old Washington county.—Chapley Banner.

A Crate Factory.

A crate manufactory can be erected in Apalachicola for \$10,000. This plant would give employment to a number of people who would spend their money in Apalachicola, distributors and others. The raw material for the mill can be had in abundance

in this neighborhood, and it can be marketed cheaply. The crates would find ready sale at a fair profit. Those posted in such matters say this mill would pay a handsome dividend upon the investment. Let some citizen who understands machinery and such things, take a peep into the suggestion.—Apalachicola Times.

Oyster Crop Good.

If a hurricane does not come to injure them Apalachicola oysters will be here in large quantities when the demand for them occurs. The bay contains an immense quantity of young oysters—more in fact than for several years past.—Apalachicola Times.

Plenty of Promises.

Jefferson D. Stephens announces himself as a candidate for Congress in the Third district of this state. If elected, he has many pledges that will keep him busy to fill.—Gainesville Sun.

The War at Ocala.

Governor Broward will now have to send a few peace envoys down to Ocala to quiet the citizens. All appear to be indignant over the fact that an appointment to the office of County Judge was made before the Democratic executive committee of that county could get together and recommend a suitable person. Moral: Strike while the iron is not.—Quincy Times.

The Board Did Right.

A great big howl is being raised in some quarters because the Board of Pardons refused to let W. L. Taylor, who made a murderous assault on W. B. Lamar, just after the primary of three years ago, go free. He was given a fair trial by a jury of his peers and the supreme court sustained the verdict of the lower one. There was absolutely no reason why a pardon be granted except that he had a wife and children dependent upon him. If this is sufficient reason for a pardon,

then all that is necessary, no matter what the gravamen of the offense, is to have a wife and children, enter this as a plea, and save the expense of trials. The Board of Pardons did exactly right in letting him serve his sentence. It's high time that the impression that the poor devil goes free while the poor devil goes to the camps is done away with.—DeFuniak Breeze.

Tampa Must Be "Shown."

Tampa would be delighted to welcome that new railroad—i. e., when it hears the "whistle blow." Within recent years Tampa has so often experienced the feeling of having railroads out for it—and has never seen the color of their tracks or heard the rumble of their trains—that the mere mention of these things do not enthrall now as they once did. In other words Tampa has reached the "show" stage as regards new railroads, but at the same time the Herald firmly believes that the business interests of the city are prepared to give substantial encouragement to any new railroad that comes along.—Tampa Herald.

Texas vs. Florida.

Speaking of warm weather, how'd you like to live in Texas where the mercury registers 99 degrees at midnight and 105 degrees in the daytime. Once more we are satisfied to live in Florida.—Madison New Enterprise.

Wicked Santa Rosa.

Conditions have reached a very deplorable state when unscrupulous white men will use the name of a poor ignorant negro to avoid detection when ordering whiskey to be sold on the sly. If Santa Rosa county had such a sheriff as Walton, some of those "blind tiger" fellows here would soon be looking through the iron bars. The Lord send the day when Santa Rosa will have a corps of public officials

In the western part of town Mrs. J. Q. Kennedy, while standing near the stove cooking supper, was struck and was unconscious for three hours. Miss Belle Davis, who resides near the court house, was another victim, suffering dreadfully for a few days with a burned shoulder. At this writing all parties have about recovered from the shock.
